

**More Perfect Points & Curves – a 6 Hour Class based on the Book: Penny Haren’s More Pieced Appliqué™:**

This class focuses on four different foundation blocks that are not covered in the Perfect Points and Curves Beginning Pieced Appliqué™ class. Students are welcome to take both – and will learn totally different techniques in each class.

Penny Haren’s More Pieced Appliqué features 25 additional 6” blocks that combine piecing with layered appliqués to create even more intricate blocks than the first book – with minimal effort.

Every block is created by layering appliqués on one of ten different simple foundation blocks. This is not our grandmother’s appliqué. In this freezer paper method, straight sides and gentle curves are turned over a double layer of paper so you achieve perfect appliqué results every time.

Learn quick piecing techniques that make it possible to piece perfect nine-patches, pinwheels; kaleidoscopes; and quarter-square triangles. Then learn how to add pieced appliqué to these foundations to create blocks that you have always avoided in the past. Inset points, odd angles, and “Y” seams are no longer a problem. You won’t believe how easy it is.

Eliminate the inset points in a “Spools” block. Appliqué mitered corners on a nine-patch foundation and fussy cut the center to create heirloom quality results when sewing “Cornerstone”. Use Triangle Paper on a Roll™ to create a perfect pinwheel – and then cut appliqués from a pieced strip to create “Clay’s Choice”. Learn how to piece a kaleidoscope and reverse appliqué a perfect circle to create a “Purple Cross” block. And that is only the beginning!

In this six hour class, we will make four different 6” blocks – Spools; Purple Cross; Clay’s Choice; and Cornerstone - to learn four different techniques. All of the fabric; templates; and freezer paper will be provided so you can begin sewing immediately!

**Supply List:**

Penny Haren’s More Pieced Appliqué Book 6 ½” Creative Grids Square It Up & Fussy Cut Ruler  
6 ½” x 12 ½” Gridded Ruler Water Soluble Glue Stick Water Erasable Marker Pencil Paper & Fabric Scissors Rotary Cutter & Mat that makes it possible to cut a 9” square Iron and Ironing Board A \$10 Kit available from the Instructor that includes pre-cut fabrics; templates and freezer paper for each block; a set of templates for the entire book; & labels for each block.
